

LILIANA SARCONE

Fine Art & Deco

ABOUT ME

I'm an artist inspired in my inside, with very opposite contrasts.

I paint, sculpt and engrave. In my works it can be seen the geometric lines in juxtaposition with infinite variables of textures.

I try to touch people's hearts, with my abstract and figurative artworks.

Nowadays I'm experimenting a new technique with plaster and acrylic since the Pandemic, which you can see in the right picture called VENUS.

I make lots of exhibitions and I win several national and international awards in painting and engravings.

My works are in different countries and in Argentina where I am from.
